

Gym Divider Curtains

Quality reinforced vinyl. Select a vinyl-coated polyester mesh to facilitate air flow, a tough solid vinyl to provide a visual barrier between play areas or a combination of mesh on top and vinyl on the bottom.

Divider Curtain Color Choices

Progressive gym divider curtains are constructed of the highest quality reinforced vinyl. Select a vinyl-coated polyester mesh to facilitate air flow, a tough solid vinyl to provide a visual barrier between play areas or a combination of mesh on top and vinyl on the bottom.

18 oz. Vinyl

Red, Yellow, Dark Blue, Forest Green, Beige, Gray, Black, Marine Blue, Maroon, Orange, White

Mesh

Yellow, Red, White, Blue/Black, Gray, Black
(Blue/Black Mesh not available in Top Roll Dividers)

22 oz. Vinyl

Gray, Red, Blue

Fold Up Curtain

Progressive Fold Up divider curtains are both functional and attractive. Constructed of heavy duty reinforced vinyl and vinyl coated polyester mesh, the accordion style folding action is accomplished by cables running vertically through grommets as the bottom tube is raised. Smooth folding action is achieved by a $\frac{3}{4}$ HP direct drive winch. Virtually invisible in the raised position, the curtain is mounted to the building structure. Center line drive shaft spreads weight of curtain over entire length of curtain for proper alignment, appearance and safety. Available in 18 oz. vinyl.

Top Roll Curtain

The Top Roll curtain uses no hoist cables or straps to raise and lower the curtain. The Top Roll curtain stores within approximately 14" of the roof structure allowing maximum playing height for low ceilings. $\frac{3}{4}$ HP direct drive motor is externally located at one end of divider and connects to the drive tube via a durable universal joint. Attractive clean design allows any combination of vinyl and mesh height. Available in 18 oz. vinyl.

Perimeter Curtain

Progressive Perimeter Curtains are ideal for following the inside or outside perimeter of running tracks within multi-use facilities and field houses. These curtains are designed to separate the running track from interior basketball or volleyball courts, thereby maximizing facility use and flexibility.

Curtains are constructed of heavy duty reinforced vinyl and vinyl coated polyester mesh. The fold action is accomplished by cables running vertically through grommets set into the curtain and anchored to the bottom tube. The radius curtains utilize double universal joints to allow the drive system to closely follow the required curvature. The smooth folding action is achieved by direct drive winch. The curtain is mounted to existing building structure and curves to match existing facility curvatures.

Ridge Fold Curtain

The most effective use of space in a sloped ceiling application. Progressive's Ridge Fold curtain design stores in a tighter area for additional clearance and a cleaner look. Engineered to fit against the roof frame providing maximum clearance for all sporting activities. Each Ridge Fold curtain is custom designed to fit your specific requirements. Constructed of heavy duty 18 oz. reinforced vinyl and vinyl coated polyester mesh. Folding action achieved by up to 1 HP direct drive winch.

Maintenance Free Power

Progressive Motorized Divider Curtains come with a state of the art, direct drive winch, powered by a $\frac{3}{4}$ HP motor that quickly raises curtains to stored position. It uses no belts or chains and is virtually maintenance free!

Gym Divider Curtains & Practice Cages

Roll Up Curtain

Progressive Roll Up divider curtains offer an attractive way to divide your facility. Curtain is raised by heavy duty hoist belts rotating a 3 $\frac{1}{2}$ " diameter tube. Constructed of heavy duty reinforced vinyl and vinyl coated polyester mesh for an attractive, wrinkle free appearance. The smooth rolling action is achieved by a $\frac{3}{4}$ HP direct drive winch. Virtually invisible in the raised position, the curtain is mounted to the building structure and requires only a 2' storage space for maximum ceiling clearance. Center line drive shaft spreads weight of curtain over entire length of curtain for proper alignment, appearance and safety.

Walk Draw Curtain

Designed for manual operation, the Progressive Walk Draw divider curtain is a cost effective way to separate areas of your gymnasium. Easy to use, the curtain is moved by pulling the curtain along a ceiling-suspended track that is designed to store along a perimeter wall. Ball bearing wheels ensure a smooth, gliding action. Available in solid vinyl, all mesh or a combination of both fabrics to customize the look of your curtain.

Bottom-Lifting Practice Cage

Retractable Multi-Sport Practice Cages

Multi-Sport Practice Cages have a variety of uses including baseball, golf, tennis, soccer etc. allowing for practice year round. Cage is easily raised and lowered by a drive shaft powered by an electric winch. Standard size is 10' high X 12' wide X 70' long and can be customized to virtually any size. Standard netting color is white. Also shown with optional black netting. Available as Bottom-Lifting, Center-Lifting and Side-Lifting models.

Center-Lifting Practice Cage
