

MAINTENANCE SCHEDULE FOR GYM WALL PADS

The following procedures should be performed not less than one time per year to insure continued proper operation of the volleyball system.

1. Check all Wall Pads to insure they are tightly fastened to the surface they are intended to cushion. Secure any loose Wall Pads.
2. Check Wall Pads for tears or rips. Torn or ripped Wall Pads should be repaired immediately to prevent further damage. Badly torn Wall Pads should be replaced.
3. Clean Wall Pads with a mild detergent and water or an off-the-shelf vinyl cleaner. You should test cleaners in a small, inconspicuous area to insure they do not cause the colors to fade.
