

Volleyball System Components

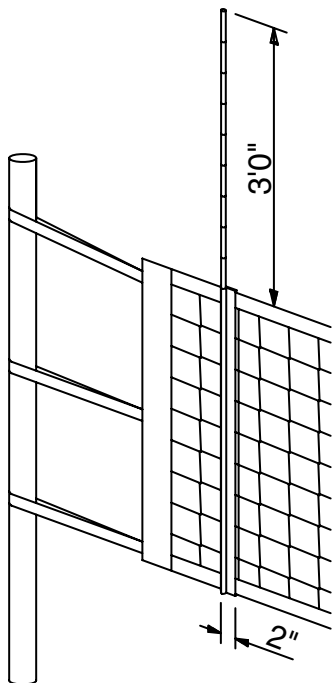

500004 Power Volleyball Net

500014 Competition Volleyball Net

5000016 Combination Antenna and Boundary Marker

Specifications—Volleyball System Components

Product Description

Power Volleyball Net shall be #500004 by Progressive Sports Construction Group. Net shall be 32' (9.75 M) long x 39³/₈" (1 M) high. Netting shall be high quality 4" square #36 black nylon cord with vinyl coated polyester hem double stitched around entire perimeter of net. Top hem of net shall be furnished with a 42'6" long x 1/8" diameter 2000 lb. minimum breaking strength galvanized aircraft cable with a nylon coating (3/16" OD) to protect against fraying. Ends of cable to have loops with heavy swadged type fittings for easy installation. Hems in end of net shall be furnished with a pocket for use with a 1/2" diameter fiberglass dowel rod. Ends of net shall have six 1" wide polypropylene tension straps with buckles for providing additional tightening of net. Bottom of net shall be furnished with a 1/4" diameter braided white nylon rope equipped with a spring loaded, pressure type rope tensioner. For use with Elite, Power and Steel Volleyball Systems.

Competition Volleyball Net shall be #500014 by Progressive Sports Construction Group. Net shall be 32' (9.75 M) long x 39³/₈" (1 M) high. Netting shall be high quality 4" square #36 black nylon cord with vinyl coated polyester hem double stitched around entire perimeter of net. Top hem of net shall be furnished with a 40'6" long x 1/8" diameter 2000 lb. minimum breaking strength galvanized aircraft cable with a nylon coating (3/16" OD) to protect against fraying. Ends of cable to have loops with heavy swadged type fittings for easy installation. Hems in end of net shall be furnished with a pocket for use with a 1/2" diameter fiberglass dowel rod. Ends of net shall have six 1" wide polypropylene tension straps with buckles for providing additional tightening of net. Bottom of net shall be furnished with a 1/4" diameter braided white nylon rope equipped with a spring loaded, pressure type rope tensioner. For use with Combination Volleyball Systems.

Combination Antenna and Boundary Marker shall be #500016 by Progressive Sports Construction Group. #500016 Combination Antennas and Boundary Markers are sold in pairs and one pair is required for each net. Vinyl boundary marker is one continuous piece that folds down both sides of the net and is held together with hook and loop style fastener. Boundary marker is designed for use with all standard volleyball nets with heights from 36" to 39 3/8" (1 M). Fiberglass antenna slips into sewn pocket on boundary marker. Combination Antenna and Boundary Marker should be installed so the antenna is located on the outside edge of the court side line (Antenna toward post).
